

# Rehabilitation Success!!!

We are pleased to share another wonderful rehab success story from:

Huntingdon  
Health & Rehabilitation Center

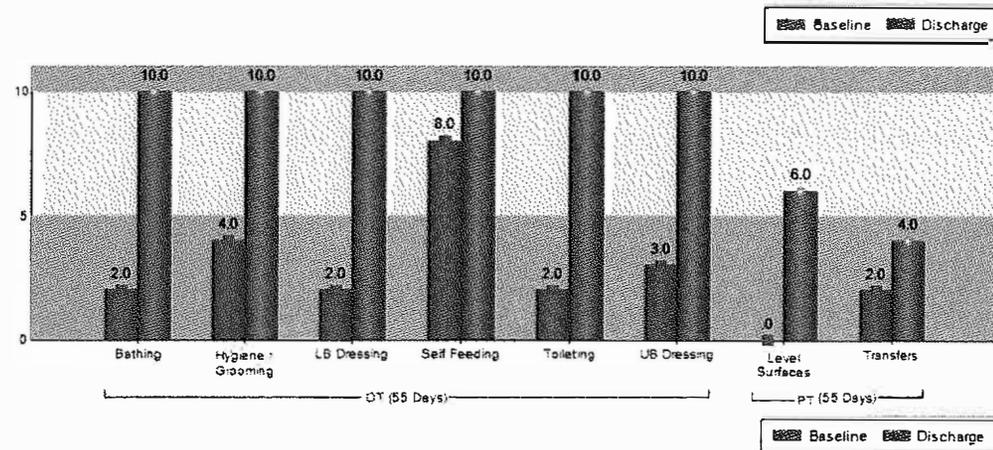

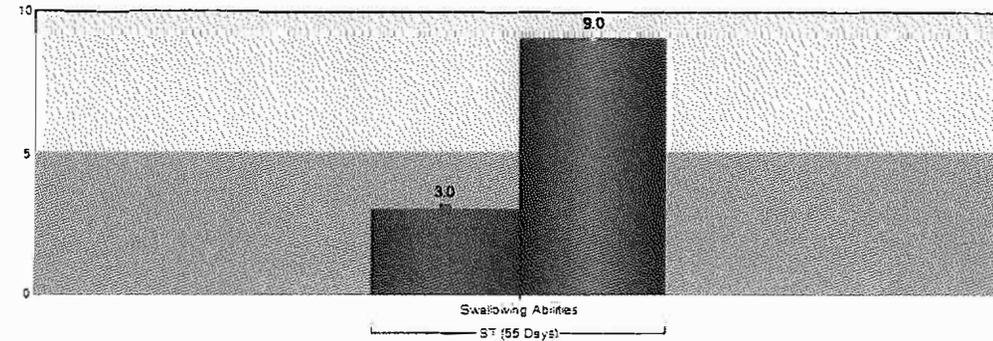

Name: Ms. Virginia G.  
Admitting Diagnosis: COPD  
Admission Date: 02/28/2018  
Discharge Date: 04/25/2018  
Discharge Location: Private Residence

## Functional Outcome Measures

**Success Story:** Prior to admission to Huntingdon Health & Rehab, Ms. G lived at home independently with her husband. Ms. G came to our facility to regain her strength and functional abilities to return home with her husband. While here she received Physical Therapy, Occupational Therapy and Speech Therapy.

Ms. G had a great sense of humor and always kept us on our toes! She knew she wanted to return home as soon as possible, so she dug deep and made it happen. Therapy success greatly depends on not only the therapist working with each patient, but the personal drive each patient has; to succeed and never ever give up!

Ms. G has been a great example, she said she will check in on us every so often to see how things are going here in Huntingdon. Good luck Ms. G!

Huntingdon Health and Rehabilitation Center: Our facility is unique in that we provide 24-hour skilled nursing services, comprehensive rehabilitation services, short and long term care, hospice and respite care. We also have a 23-bed secured memory care unit. Our programs are tailored to meet your specific needs and designed to help restore health, improve function, and increase independence. Many people choose to come stay with us for a short time following an illness, surgery, injury or hospital stay, and return back to the community feeling better and stronger than before!
